

▶ Astro-Brac

1 Arm Kit

Arm kits come in an array of options to fit many traffic signal configurations.

2 Gusseted Tube Patent Pending

Pelco's aluminum large capacity gusseted tubes allow wire entry at any point. The insert completely conceals the wiring from the mast arm to the signal head.

3 Astro-Brac Clamp Kit

The Astro-Brac clamp kit allows for all internal wiring and features 4 axis of adjustment.

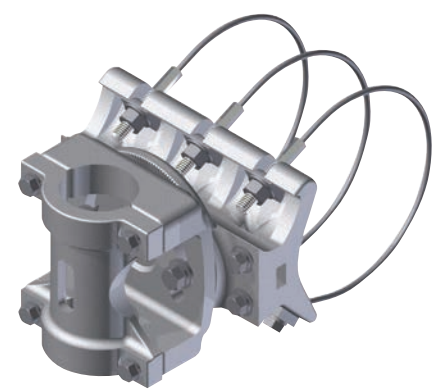

▶ Astro-Brac Triton Patent Pending

Mounting Applications:

- Cameras, Signs, Sensors, Antennas & Special Equipment

Key Features:

- Cable or band attachment
- 4 axis adjustability
- Concealed wire capable
- Stainless steel hardware
- Minimal standard tools to install/adjust
- Holds two (2) 5/8" diameter conductors
- Has 3 bands or cables for supporting added load

▶ Astro-Mini-Brac

Mounting Applications:

- Antennas, Pre-emption Detectors, Cameras, Sensors & Hub-Type Mounts

Key Features:

- One cable or band
- Threaded internally for device adjustment
- Two axis adjustability around pole or mast arm

▶ With Pelco Products, innovation always comes standard.

Astro-Brac

Since 1968

Improved Design for Larger Capacity

▶ The Most Versatile Traffic Mounting System Available

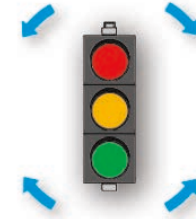

► The Astro-Brac® family of products is the *Premier Universal Mounting System* for the traffic industry.

Astro-Brac® universal mounting systems are used for signs, cameras, sensors and virtually any size or combination of signals, to mast arms and poles. The Astro-Brac is fitted with bands or cables and can rotate 360°. This versatility and dependability is only possible with the Astro-Brac mounting system.

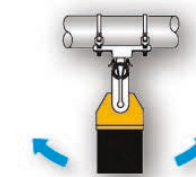

Astro-Brac® is easy to install and adjust. Contractors all over the world use it to reduce man hours and increase profitability.

► Astro-Brac® Stellar® Patented

Mounting Applications:
■ Traffic Signals, Cameras, Signs, Antennas, Sensors

Key Features:

- Cable or band attachment
- 4 axis adjustability
- Concealed wire capable
- Stainless steel hardware
- Minimal standard tools to install/adjust
- Holds two (2) 5/8" diameter conductors
- V-bolt tube clamping
- 2 piece base clamp for equal rotation tightening

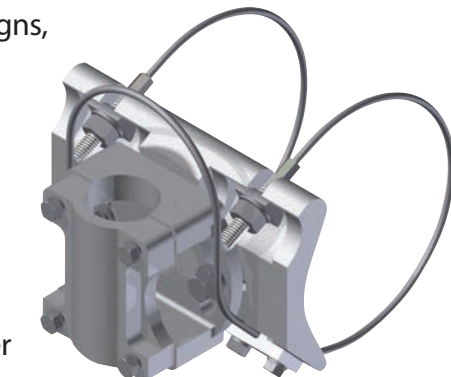

► Astro-Brac® Tallon® Patent Pending

Mounting Applications:
■ Traffic Signals, Cameras, Signs, Antennas, Sensors

Key Features:

- Cable or band attachment
- 4 axis adjustability
- Concealed wire capable
- Stainless steel hardware
- Minimal standard tools to install/adjust
- Holds two (2) 5/8" diameter conductors
- Cast saddle tube clamping
- Flat surface compression for equal rotation tightening

► Astro-Brac® Atlas® Patent Pending

Mounting Applications:
■ Traffic Signals, Cameras, Signs, Antennas, Sensors

Key Features:

- Cable or tenon mount
- 4 axis adjustability
- Conceals large diameter conductors
- Stainless steel hardware
- Minimal standard tools to install/adjust
- Holds two (2) 5/8" diameter conductors
- Installs in minutes

Astro-Brac® has been time tested in all 50 states & many countries around the world.
