

1 Astro-Brac Mounting System

Pelco's Astro-Brac universal mounting systems are used for signs, cameras, sensors and virtually any size or combination of signals, to attaching mast arms and poles. The Astro-Brac is fitted with cables or bands and can rotate 360 degrees.

2 Free-Swinging

Pelco's Span Wire mountings are available in aluminum or iron with 1-1/2" or tri-stud fittings. Balance adjusters provide additional adjustment capabilities, while tether assemblies may be used to anchor the bottom of signals in windy applications.

3 Side of Pole

Pelco's Side-of-Pole assemblies are designed to mount traffic and pedestrian signals on the side of traffic signal poles with an upper and lower arm. Available in aluminum or iron, and 1-1/2" NPS, tri-bolt, or tri-stud, and a vast array of hubs to accommodate either 1-way or 2-way signal configurations.

4 Rigid Post Top

Pelco's Post Top Slip Fitters are available in aluminum or iron, 1-1/2" NPS, tri-bolt or tri-stud. Post Top Terminal Compartments are supplied with a 12-circuit terminal strip, unless indicated otherwise.

5 Rigid Tenon Mount

Pelco's aluminum Plumbizers assemblies are designed to mount traffic signal assemblies on the end of a mast arm that has a 2-3/8" diameter tenon. Available in both straight and offset configurations.

6 Sign Mountings

Pelco manufactures a variety of sign brackets in rigid and free-swinging mounts for both flat and internally illuminated signs.

7 Camera Mountings

Pelco makes adjustable brackets for cameras, sensors and antennas that can mount a variety of traffic industry devices. Video Detection camera brackets are available for mast arm, post top, span wire and side-of-pole applications.

8 Push Buttons

Pelco has a full line of pedestrian push buttons and stations with or without LED indicators and ADA acceptable plungers.

9 Cabinets

Aluminum Flasher Cabinets are weather resistant and are available for rear, top and bottom mounting. Various brackets are available for mounting to wood or metal poles. A complete line of Type II or Police Type cabinets are also available.

10 Backplates

Vacuum formed backplates are fabricated from black ABS UV stabilized plastic sheet with hair cell finish on front side, smooth finish on back side, 5/8" flange on all sides, and 3" corner radii. Each are designed to precisely fit manufacturers signal heads and are supplied with necessary hardware.

11 Poles & Bases

Pelco offers aluminum, steel, and plastic bases in various sizes as well as poles in aluminum and steel. Pelco's cast aluminum square base is FHWA certified and meets or exceeds AASHTO break-away requirements. Plastic replacement doors offer an economical way to deter vandalism.

12 Mast Arms & Poles

Pelco fabricates many steel and aluminum mast arms and poles. Ornamental or custom structures come in numerous finishes from hot dip galvanized to powder coating. Our ITC access compartment makes wiring and maintenance easy.

13 Traffic Accessories

The Pelco GPL is a precisely aimed and controlled traffic signal louvering system. Full circle and tunnel signal visors are supplied with a universal clip for attachment to the signal. Confirmation lights are used to confirm a traffic signal is red when a car enters the intersection. Available in multiple colors and mounting applications.

14 Components

A wide selection of components are available that make up the nation's largest line of traffic hardware.
